Executive Summary

The Corporation of Hamilton (“The Corporation”) is pleased to present a balanced budget for the financial year ending December 31, 2018. A balanced budget is obtained by determining the sources of funds (projected revenue and cash on hand at the beginning of the year) and then determining the uses of those funds which include both operating expenses and capital projects. (See Cash flow). The operations budget is fairly close to the minimum level needed to provide services so in most cases a balanced budget is obtained by delaying capital projects. This year would have been the first time that the Corporation presented a three year balanced budget, however, while preparing the budget it has become evident that the Corporation can no longer delay some of the capital projects and we will not be able to pay for these projects using current income alone. This can be seen in the 2019 and 2020 budgets which show that uses of funds far exceed the sources of funds.

Additional Funding

During 2018 the Corporation will explore options for funding these projects from other sources.

Sewage Treatment

The Corporation has an aging sewage plant which will require upgrading over the next few years.

Projected Costs for the Sewage system are:

Year	Amount	Description
2018	\$ 750,000	Design of primary treatment solution
2019	\$ 7,500,000	Primary Treatment Solution
2021	\$ 10,000,000	Replace outfall pipes

Car Park Resurfacing

The Corporation will continue to set aside \$600,000 each year in the operations budget for the resurfacing of the streets. This, however, does not provide enough funds to also resurface the car parks. Additional funding will be sought for the car parks.

2018 Capital Projects

Vehicles

In all budgets going forward the Corporation will set aside funds to replace vehicles. This will ensure our fleet of vehicles are kept up to date and eliminate any disruptions to service due to equipment failure from aging vehicles.

Traffic Lights

The traffic light system is over 30 years old and has to be replaced. In the 2018 funds have been set aside to replace traffic lights at two intersections. The city will also implement the Split Cycle Offset Optimisation Technique (SCOOT) system which will allow the traffic lights to communicate and improve the flow of traffic. SCOOT automatically adjusts the traffic signal delays to adapt to traffic conditions, using data from traffic sensors.

Street light and furniture

Funds have also been allocated to continuously improving street lights and furniture. Street furniture is the items for decorating the streets such as bins, benches and planters.

Property

The Fenchurch property will be renovated this year with the aim of improving the revenue that the Corporation receives from this property.

2018 Operations Budget

Revenue

By the end of 2017 Car park barriers will have been installed in 5 car parks. (Number 1, Par-La-Ville, City Hall, Bulls Head and Elliott Street car parks) The budget reflects that we expect to see an increase in car park revenue. The Traffic Offences and Procedure Amendment and Validation Act 2015 (TOPA) was effective from June 1st 2017. The 2018 Budget reflects that we expect to receive revenue from parking tickets issued on the streets of Hamilton.

Tax Revenue is expected to remain fairly consistent with prior years. No rate increase has been proposed for this year.

Wharfage and Dock Storage revenue were fairly high during the first six months of the year due to America's Cup activity we expect the revenue in 2018 to be closer to 2016 levels.

Staff Expenses

We have budgeted for 6 new staff members. Details of the increases by department can be found in the number of employees by department schedule on Page 6 of this report.

Administrative and Operating Expenses

As in prior year no significant changes have been made to the services provided to the city so the operations expense budgets have remained fairly consistent from one year to the next with the exception of legal fees which have increased due to legal issued related to the MIF case.

2018 Events

Back on the events calendar in 2018 will be the Fashion Festival. There will be two Food Festivals in 2018 with one in the spring and another in the fall. In 2017 the Corporation took over the responsibility of running the boat parade which will continue to be held every other year. In the alternative years the Corporation will hold New Year's Eve events. Bonfires & BBQ's and Movie Lounge are two popular events that were started in 2017. They will return to the Events calendar in 2018.

In October 2017 a tent has been erected in No 1 car park. In addition to being used for the food and fashion festivals this site will be rented out to third parties for their events. This should increase revenues as well as adds vibrancy to the area.

The residents committee has also asked for events to be added to the budget. In 2018 the residents committee will host quarterly safety meetings with the residents to facilitate the creation of a City Neighborhood Watch. They will also create historical education walking tours of the city as well as a design and naming contest for city neighborhoods.

Issues

The city will continue to try to resolve several issues which are outstanding with the Bermuda Government.

Leases

The following leases are outstanding with the Bermuda Government.

- 1) Fire station- Property has been occupied rent free since the lease ended in 2008. The previous annual rent was \$1.00
- 2) Bus Terminal – Lease expired December 2016.
- 3) Ferry Terminal
- 4) Customs House

The Corporation will continue to reach out to the Bermuda Government to get these leases resolved.

Ordinances

During 2017 the Corporation was not successful in getting the Bermuda Government to pass the Sewage Tax Ordinance. The act would have imposed an additional tax on those customers who use the sewage system. All funds from the tax would have been isolated and used solely for projects related to the sewage system. Since we have not been able to get the act passed the projected revenue from that tax has not been included in the budget. The Corporation will continue to push to get this ordinance passed.

In 2017 the Corporation purchased a new trash truck and new equipment was added to another trash truck. Wheelie bins were also purchased in anticipation of rolling out a wheelie bin initiative for the entire city. All commercial and residential properties would have been required to place all trash in the wheelie bins. This initiative has stalled as the Garbage Ordinance Amendment has not been passed.

The city has also not been able to get the Parking Ordinance passed by the Bermuda Government.

Number of Employees by Department

Department	2018			Ending (2018)

Corporation of Hamilton
2018 Budget
New Capital Projects

	PROPOSED NEW CAPITAL PROJECTS	TYPE	Code	2018	2019	2020	
				Revised Budget	Revised Budget	Revised Budget	
2	CCTV camera installations	Security	A	-	100,000	-	Install existing cameras and purchase additional cameras
4	Sewage Treatment - Primary treatment	Sewer	C	750,000	7,500,000	-	Project as detailed in AE Proposal
6	Install sewage pump station and remove cess pit	Sewer	C	-	80,000	-	Install a packaged ejector station to collect all wastewater from the bathrooms and concession and pipe to nearest city sewer.
7	Barrs Bay Park - Repurpose building	Facilities	D1	-	150,000	-	Refurbish building to accommodate new use. Uses have not yet been determined
9	Stair access on Bulls Head / Elliott Street	Parking	D1	-	140,000	-	Provide pedestrian access to Bull's Head and eliminate conflict with vehicles on ramp.
10	Permanent cover over Reviewing Stand	Street	D1	-	100,000	-	Remove need for fabric covers with limited life span
11	Reid Street improvements	Street	D2	-	200,000	100,000	Install pedestrian improvements as per the Reid Street plan
12	#5 Car Park conversion to Green Park	Parks	D2	-	150,000	-	Repurpose #5 Car park for use as a park amenity
14	Bulls Head Car Park Bathroom	Facilities	D2	-	100,000	-	Install a public washroom at the multistorey car park to address current sanitary issues
15	Barrs Bay Park - Marina	Facilities	D2	-	-	850,000	Install a marina to accommodate day parking for boats wishing to access the city
16	Barrs Bay Park - Install public washrooms	Facilities	D2	-	80,000	-	Install public washrooms in the existing gardening shed.
17	Fort Hamilton - Install event lighting	Parks	D2	-	150,000	-	Install lighting to allow for evening and night events at the park. Currently there is no lighting at all.
18	Fort Hamilton - Remove and replace asphalt at entrance	Parks	D2	-	80,000	-	Asphalt is degrading and will need to be replaced. As asphalt is not in keeping with the historical character of the Fort we are proposing concrete and brick paving
24	Tree grates	Parks	D2	-	100,000	50,000	For installation through out city as we install new street trees
28	Washington Lane refurbishment	Street	D2	-	200,000	-	Remove and replace concrete pavers with brick pavers
29	Harbour Boardwalk	Street	D2	-	-	200,000	Design and construct amenity linking Front street together
30	Theatre lighting - upgrade to LED	Facilities	D2	-	50,000	15,000	Project to completely convert lighting over to new and improved LED lighting fixtures. Cost saving in power consumption from both lights and AC.
31	Car Park control equipment	Parking	E	50,000	-	-	Continuation of providing barrier systems in P&D car parks
33	Fort Hamilton - Install potable water system	Parks	E	-	75,000	-	Install water service to Fort to remove need to use water truck to fill tanks that have no catchment
36	Bulls Head - Solar Panels	Misc	E	-	-	5,000,000	Install a solar farm to provide power to local buildings or grid
37	Solar panels for City Properties	Misc	E	200,000	-	-	Propose using Front St Pump Station, Hamilton Hall, Stevedoring House, Works Depot. No costs have been gathered for individual projects. Return on Investment (ROI) is currently 7 years if all power produced is consumed on site.

RISK

Likelihood		Consequence				
		Insignificant	Minor	Moderate	Major	Severe
Almost certain	5	5	10	15	20	25
Likely	4	4	8	12	16	20
Possible	3	3	6	9	12	15
Rare	1	1	2	3	4	5

Risk is defined as "the potential for realizing unwanted adverse consequences to human life, health, property, or the environment; estimation of risk is usually based on the expected value of the
